

October is Dyslexia Awareness Month

Dyslexia is a difficulty learning to read

DID YOU KNOW?

- Dyslexia is one of the most common learning difficulties affecting 5- 10% of people.
- Children and adults with dyslexia can have difficulties with accurate and fluent word recognition, spelling, writing and reading comprehension.
- Students with dyslexia can improve their reading and spelling skills with evidence-based literacy instruction and intervention.
- Dyslexia is not a vision issue and cannot be resolved by vision interventions such as coloured glasses or eye exercises.
